PROFESSIONAL SUMMARY

Full-Stack Developer specializing in JavaScript/TypeScript, with experience building web applications using React, Next.js, Node.js, and Express. Focused on backend development, REST API design, and end-to-end web applications. Currently expanding my knowledge of cloud computing, DevOps, and artificial intelligence.

EDUCATION

Cloud Computing Specialization

IES Mare Nostrum

Present

Alicante

Higher Vocational Training in Web Application Development (DAW)

PROFESSIONAL EXPERIENCE

Frontend Web Developer & SEO Analyst Intern - Cerrajerocasi24h

2 March 2026 - 5 June 2026

Next.js · TypeScript · React · SEO · Tailwind

- Independently managed the development and migration of the company's website from WordPress to Next.js and Tailwind CSS, improving overall performance and page load speed by 60% while optimizing its technical structure and local SEO.
- These improvements contributed to a 94% increase in impressions and a 31% increase in organic clicks on the main page.
- Migrated the website hosting from Plesk to Vercel, reducing the site's maintenance costs.
- Worked directly with the client to understand their requirements, propose improvements, and adapt the design and functionality to their needs.

PROJECTS

PingUp - Full-stack Social Network [\[Live Preview\]](#) [\[Github\]](#)

React · TypeScript · Node.js · Express · PostgreSQL · Prisma · Tailwind

- Developed a full-stack social network inspired by Twitter/X, featuring posts, likes, comments, reposts, follows, notifications, user profiles, and infinite scrolling.
- Designed a REST API using Express and Prisma, implementing JWT/Google OAuth authentication, data validation, and cursor-based pagination.
- Integrated Google Cloud Natural Language for sentiment analysis and Google Cloud Translation for automatic translation, using PostgreSQL caching to reduce repeated API requests.
- Implemented image and video uploads through Cloudinary and optimistic updates to improve the user experience.
- Deployed the frontend on Vercel and the backend on Render, using Neon as the PostgreSQL provider.

SKILLS

Programming Languages | JavaScript, TypeScript, Python, SQL

Frontend | React, Next.js, React Router, TanStack Query, Zustand, Tailwind CSS, HTML5, CSS3

Backend | Node.js, Express, REST APIs, Prisma ORM, MySQL, PostgreSQL

Tools & Technologies | AWS (ECS, S3, RDS), Docker, Git, GitHub, Linux

Soft Skills | Autonomy, Adaptability, Fast Learning, Teamwork, Attention to Detail, Proactivity

Languages | Spanish (Native), Romanian (Native), English (C1 – Advanced), Valencian (B2 – Upper-Intermediate)

ADDITIONAL INFORMATION

Willing to relocate | Immediately available | Open to remote or on-site positions
